CAREER OBJECTIVE

Inheriting the skills and knowledge more on web development. I would like to extend my career as a front end developer. I find it my sort of thing and I see my future bright in it. Being a front-end developer can be a better career option for me as of now because of its enormous demands and desires. Looking to leverage my knowledge and experience into a role as a Front-End Developer.

FAMILIAR WITH

HTML, CSS, Bootstrap and Java Script
Designed a simple static website at beginning to a dynamic and a responsive website. I have also linked my front-end projects in my GitHub repository.

Python
Created a simple program for a library for keeping their records & sorting financial transactions.

Java
Developed a simple program based on hiring the applicants in a company. Moreover, designed a house/flat rental Management System using Java and NetBeans IDE.

XML and Schema
Designed a simple website for an online vehicle shop which displays the detailed information, features, availability and so on of different types of vehicles.

PHP and MYSQL
Designed and developed a basic website with the assist of PHP and database connection. Currently I am working on developing a website using PHP and MYSQL.

Mobile Application Development
Developed and Designed a Clock Application using Android Studio IDE and JAVA.

INTEREST ON

- Creating web and mobile applications
- Website and Webpage Designing.
- Maintaining, optimizing, troubleshooting & improving websites
- Promoting and communicating new ideas

HOBBIES

Learning & Researching   Coding   Travelling   Designing
